Learn Disciplined Agile and Earn your DASM!

Disciplined Agile (DA) is a toolkit to aid project teams in delivering value to stakeholders. You may have tried Agile methods in the past and found them to be overly prescriptive, but that's not DA. DA enables teams to choose their way of working, improve process flow, and delight customers.

Learn how you can use DA to improve any of your projects - from product delivery to construction to IT. DA is for everyone.

Earn 14 PDUs in this online course from our friends at GR8PM. The class includes 14 hours of training, an Agile self-assessment, and the registration fee for the Disciplined Agile Scrum Master exam. Grow your skills and your career during this course!

June 21 through 24th
2:30 pm - 6:00 pm

Board Member Testimonial:

"I earned my DASM in 2020 and use it every day with my Product Delivery Team. DA didn't replace the skills I learned with the PMP, instead it added additional value. DA gave me the tools I needed to effectively manage my projects and teams. It is adaptable to all of my projects, not just the technical ones. The best part about DA is that it isn't a framework, it is a tool kit. We only tools that make sense for the work we are doing, Context Counts! I highly encourage anyone thinking about the DASM certification to go for it, you will not regret it!"
