April Chapter Meeting!

Purple Cow Leadership: How to Stand Out As a Leader

We will have Saby Waraich from the Portland Chapter leading both our dinner meeting keynote and pre-dinner training at CenterPlace (2426 N Discovery Pl, Spokane Valley, WA 99216). If you have never seen Saby speak, he is amazing! We hope you can join us for a much-needed in-person event.

Saby will lead two sessions. Beginning at 3:30 pm, he'll speak on the difference between Project Managers and Business Analysts. Are they friends or foes?

We'll have time for networking at 5:00 and then our dinner session/keynote will begin at 6:00. Learn how you can be a standout leader from our engaging speaker, Saby!

Dinner is included in this event. Le Catering is providing a wonderful meal: Herb Roasted Chicken in Parmesan Cream Sauce, Spring Salad, Garlic Mashed Potatoes, Roasted Green Beans, Bread + Butter, Mini Dessert Tray. No Host Bar is available (accepting Cash, Credit, or Debit). Vegetarians, Vegans, or folks with dietary restrictions, please let us know your needs in the registration form and we'll make sure you're covered!

This In-Person Event earns 3 PDUs. Cost is \$55 for Chapter Members and \$75 for Non-members (dinner included).

April's Chapter Meeting is sponsored by our friends at Volt! Visit them at the event to learn more about their current opportunities.

DISCIPLINED AGILE FORUM

Disciplined Agile Forum

April's DA Forum will be hosted by a guest speaker: Chris Barton!

Chris has been a technical project manager for over seven years in various industries: banking, K-12, higher ed, and high tech. Most recently, he accepted an offer with Olive (www.olivai.com) as a Sr. Technical Project Manager overseeing back-end platform projects. In his down time, he likes to play guitar, ride his motorcycle, and build model kits.

During the forum, we will be discussing the use of technology in project management with distributed teams. In our discussion, Chris will highlight the various tools he uses in his current role with an emphasis on Jira:

- Slack - for quick conversations and impromptu calls via the huddle feature
- Zoom - for all other meetings and scrum ceremonies

- Jira - for managing Agile projects using either Scrum or Kanban methodologies.

This free, virtual event earns 1 Technical PDU.
